

**REMARKS**

This communication is responsive to the Office Action mailed July 29, 2003, which argues that restriction is required under 35 U.S.C. §121 as follows:

Group I: Claims 1-30, drawn to a vibration resistant floor, classified in class 52, subclass 167.1 and claims 42-55, drawn to a clean room, classified in class 454, subclass 187; and

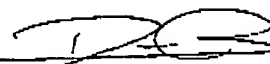

Group II: Claims 31-42, drawn to a method of forming a vibration resistant floor, classified in class 52, subclass 741.1.

The Examiner argues that inventions I and II are related as a product and a process of making same. Applicants elect Group I, claims 1-30 and 42-55, without traverse.

In view of the foregoing, Applicant respectfully submits that the present application is in condition for allowance, and earnestly solicits a Notice of Allowance at the Examiner's earliest convenience. The Examiner is invited to telephone the undersigned if such would advance prosecution of this Application in any way.

Dated this 1<sup>ST</sup> day of DECEMBER, 2003.
